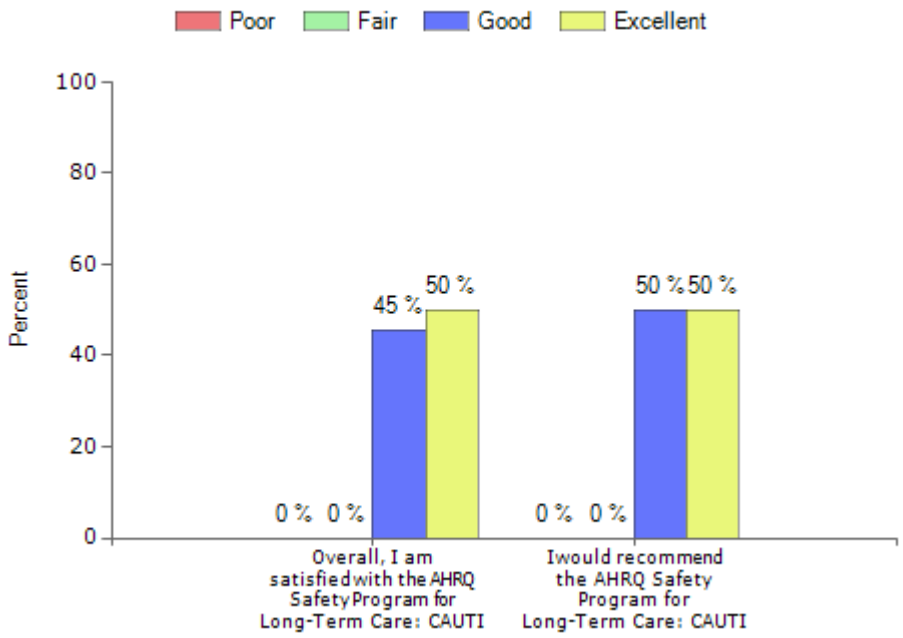
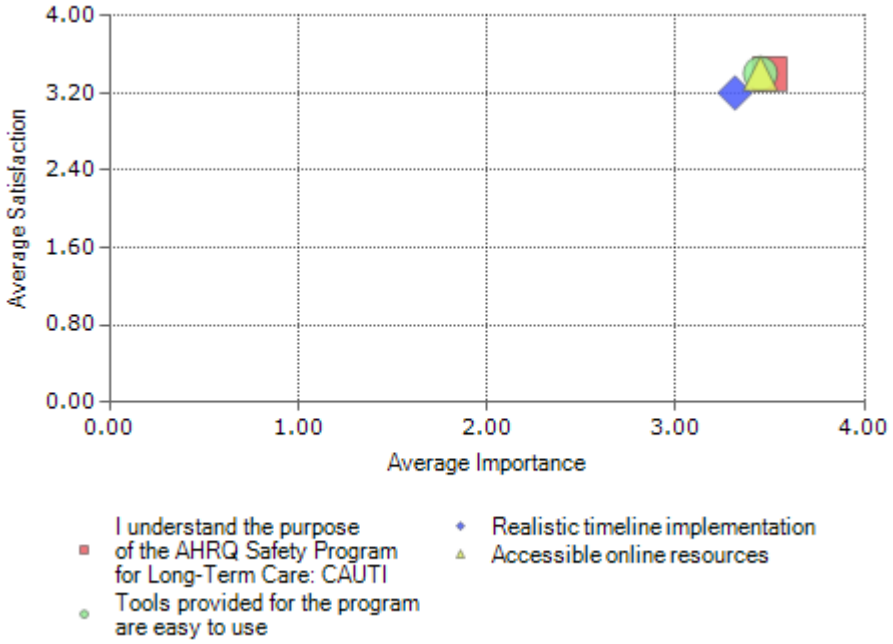
Please rate the following statements on program satisfaction



Total Respondents: 22
Total Skipped: 0

Overall 100% of respondents are satisfied (rating of good/excellent) with the program (average score 3.35 out of 4) and 100% would recommend participation in the program to other facilities (average score 3.5 out of 4).

Please rate the following statements both on overall satisfaction and importance:



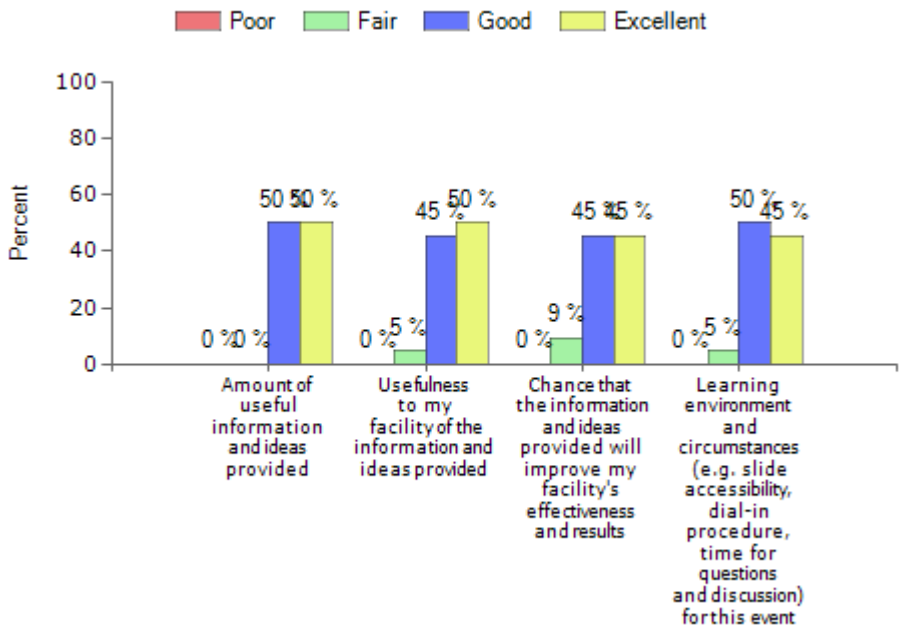
Category	Average Satisfaction	Average Importance
I understand the purpose of the AHRQ Safety Program for Long-Term Care: CAUTI	3.40	3.50
Tools provided for the program are easy to use	3.40	3.45
Realistic timeline implementation	3.20	3.32
Accessible online resources	3.40	3.45

ID	Choice
1	Poor
2	Fair
3	Good
4	Excellent

Total Respondents: 22
Total Skipped: 0

Overall, participants averaged a "Good" ranking for all categories. "Realistic Timeline" and scored lowest in terms of satisfaction.

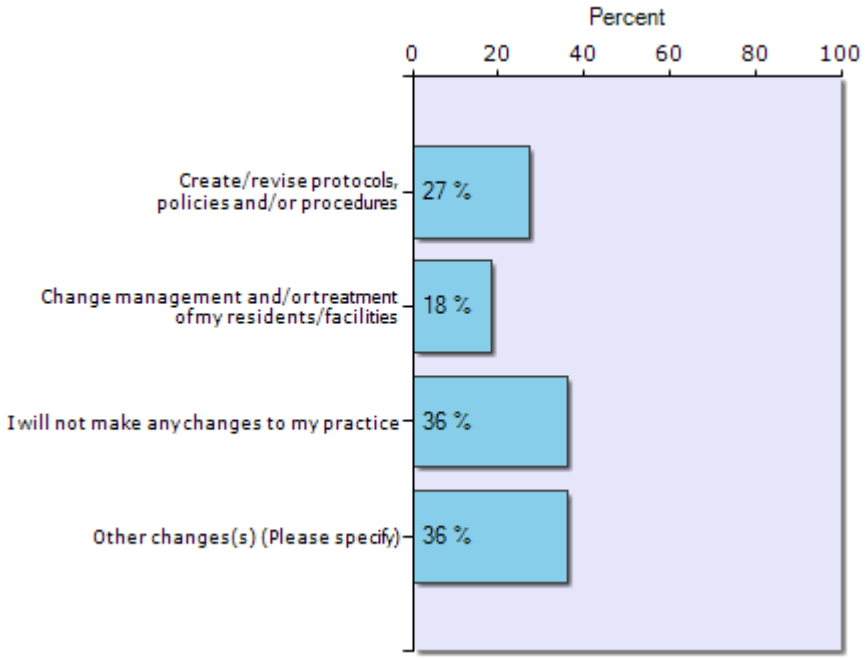
Please provide feedback on today's presentation.



Total Respondents: 22
Total Skipped: 0

Overall, 100% responded positively (good/excellent; average score 3.5 out of 4) on the "Amount of useful information and ideas", 95% positive (3.45 out of 4) on "Usefulness to their facility of the information provided" and 90% positive (3.33 out of 4) on "Chance the information will improve their effectiveness in their facilities" and 95% provided a positive response (3.4 out of 4) related to the learning environment of the webinar.

I will use the information from today's event to:



Total Respondents: 22
Total Skipped: 0

Other: Education (x3)," "Will review documentation, and implement as needed," "May implement some of these tools for assessments," "we will be implementing modules in our facility."

Text Response Summary

Comments on today's presenters:

- Good information

From the information provided during this event, please describe what you plan to do:

- We will try to download the toolkit for educational guide with staff
- Utilize toolkit to fine tune procedures and improve quality tools

The one thing about this event that I would like to see improved is:

Response
SOUND QUALITY. I WISH THE TOOLKIT WAS AVAILABLE TO VIEW BEFORE THE INSERVICE
More Handouts
time of webinar and ability to read the info on slides onscreen
The time, difficult with am meetings
none, great job!!!
The sound is sometimes difficult.
Everything seemed great
I thought the program was very well presented.
scale down information presented and have more interaction with attendees
Slides flow with topic discussion.
Not so close to meal service.
More feedback

The one thing about this event that I liked most is:

Response
GOOD SPEAKERS
The current handouts
time
the tool kit
amanda personal experience was good
data/materials
info provided
Someone that had actually used the tool-kit
toolkit and explaination of materials
Melbourne's ADON sharing her facility participation
the amount of information and tools.
Examples from a facility where the tools have worked
thought the program was very well presented.
use of video and other media
Very useful information!
I like the video and audio.
Good information given
information given

If you are participating in another national project, in what ways can we integrate across the projects to increase efficiency and effectiveness?

- Continue webinars

What content or topics would you like to have presented in an educational session or training in the future?

- Re-hospitalization
