

Gregory Makoul, PhD

Gregory is Founding Director of the Connecticut Institute for Primary Care Innovation (www.cipci.org), Professor of Medicine at the University of Connecticut School of Medicine and Senior Fellow at the Health Research & Educational Trust. He is internationally recognized for his work in physician-patient communication and decision making as well as a common-sense, patient-centered approach to healthcare innovation.

Prior to joining AVIA, Greg was Senior Vice President and Chief Innovation Officer/Chief Academic Officer at Saint Francis Care, an integrated delivery system based in Hartford, gaining real-world experience that complemented 15 years on the faculty at Northwestern University Feinberg School of Medicine in Chicago.

Greg earned a BA from Wesleyan University, PhD in Communication Studies from Northwestern University, and MS in Health Care Delivery Science degree from Dartmouth College.
