PATIENT AND FAMILY ENGAGEMENT SURVEY

1. Has the hospital conducted a formal self-assessment to determine the extent to which various patient and family engagement practices are used in the hospital?

- Yes, within the last 12 months
 Yes, more than 12 months ago
 No

This group of questions relates to how the hospital partners with patient and family advisors.

2. Does your hospital have a patient and family advisory council that is hospital-wide, only in a unit or units of the hospital, or no hospital-wide patient and family advisory council?

- Hospital-wide
 Only in one or more units, but not hospital-wide
 (Skip to question 7)
 There are no patient and family advisory councils
 (Skip to question 7)

4. How many times has the patient and family advisory council met in the last 12 months?

_____ time(s)

5. What percent of the patient and family advisory council members are patients and family members?

_____ %

3. Does the patient and family advisory council have bylaws or a written charter?

- Yes
 No

6. How long has the hospital had a patient and family advisory council?

- Less than 12 months
 12 months to 24 months
 More than 24 months

7. This question lists committees and work groups that may exist in the hospital. If your hospital uses a different name for its committee/workgroup, please choose the closest match. For example, your hospital may have a Quality Council. The closest match would be Quality/Performance Improvement/Patient Safety Team.

For each committee/work group, please indicate (1) whether or not it exists, (2) whether or not the committee/work group is led or co-led by a patient or family member, and (3) whether or not there are at least TWO patients or family members that serve on the committee/work group.
